DISC BRAKE TECHNOLOGY

# PREMIUM SCHOOL BUS & TRANSIT DISC BRAKES

HAWK Fleet™ by Carlisle, Semi-Metallic disc brake pads provide value to today's commercial fleets.

Designed for severe-duty automotive and truck fleet applications, F1 and F3 friction formulations combine the performance and heat resistance of industrial grade materials with the durability of traditional semi-metallic brake pads.

## F1 Semi-Metallic Compound

**Class 1-3 auto and truck fleet applications:**

- Sprinter and delivery vans
- Emergency vehicles
- SUV, RV, limo and pick-up trucks
- Transportation and taxi
- Light and medium-duty commercial trucks

## Features

- Mechanical retention system
- Lower cost per mile
- Extend vehicle up-time
- Noise minimization (NVH)
- Safety / fade resistance

## F3 Semi-Metallic Compound

**Class 2-6 commercial truck fleet applications:**

- Sprinter and conventional vans
- Automotive fleets
- Large walk-in delivery trucks
- School bus
- Utility and construction vehicles
