

Material Safety Data Sheet

(Complies with 29 CFR 1910.1200)

Section I			
Manufacturer	Carlisle Brake and Friction 6180 Cochran Road, Solon, OH 44139		
Emergency Phone .	440-528-4000	Effective Date	August 8, 2012
Chemical Name	Friction Material	Revision Date	August 8, 2012
Tradename	Sintered Friction Material		
Category	Inorganic—8032 N		

Section II - Hazardous Ingredients / Identity				
Component	OSHA-PEL (mg/m ³)	ACGIH-TLV (mg/m ³)	%	CAS No.
Silicon Carbide	Total=15.0 Resp.= 5.0	10.0	Proprietary	409-21-2
Iron	Total=15.0 Resp.= 5.0	10.0	Proprietary	7439-89-6
Carbon	Total=15.0 Resp.= 5.0	10.0	Proprietary	7782-42-5
Boron Nitride	N/A	5.0	Proprietary	

Section III - Physical Characteristics			
Boiling Point	N/A	Sp.Gr. (H ₂ O=1)	
Vapor Press (mm Hg)	N/A	Solubility in Water	Insoluble
Reactivity in Water	N/A	Vapor Density (Air=1)	N/A
Melting Point	> 2300° F	Color	Grey
Appearance/Odor	No Odor		

Section IV - Fire and Explosion Data			
Flashpoint	N/A	Method used	N/A
Flammable Limits (LEL/UEL)	N/A	Special Fire Fighting Procedure	None
Auto Ignition Temperature	N/A	Extinguishing Media	CO ₂ , foam, dry chemical, water
Unusual Fire and Explosion Hazards	Molybdenum compounds react violently with potassium nitrate and H ₂ O ₂ .		

Section V - Reactivity Data	
Stability	Stable
Incompatibility (Materials to Avoid)	None
Hazardous Decomposition Products	None
Hazardous Polymerization	Will Not Occur
Conditions to Avoid	None

Section VI - Health Hazards

Effects of Overexposure:

- Inhalation: a) Iron inhalation can cause slight upper respiratory irritation, coughing and a metal taste in mouth.
b) Chronic exposure to carbon as graphite dust can cause fibrosis, emphysema and corpulmonale.
c) Boron Nitride dust may produce pneumoconiosis.

Emergency Procedures

Eye Contact: Flush with clean water for 15 minutes. If irritation persists, contact a physician.

Skin Contact: Wash thoroughly with soap and water.

Inhalation: Following exposure to a large amount of dust, remove from exposure. If breathing has stopped, perform artificial respiration. Contact a physician.

Ingestion: Under normal conditions of industrial use, ingestion is not expected to occur. When ingested, molybdenum is considered a poison, causing severe GI irritation, diarrhea, coma and death from heart failure. **Do not induce vomiting.** Get medical attention.. If patient is conscious, give large quantities of water or milk.

Section VII - Spill/Leak Procedures

Handling, Storage	None applicable
DOT Shipping Rules	Non-hazardous as "article", no special precautions
Spill/Leak	N/A
Waste Disposal Methods	Check with local counsel for applicable laws/regulations

Section VIII - Special Protection /Control Measures

Respiratory Protection/Ventilation	Use a NIOSH approved respirator with appropriate filters when exposed to brake wear products. Use exhaust ventilation to keep exposure below exposure limits.
Protective Gloves	Recommended, particularly if sensitive skin.
Eye Protection	Recommended
Other Protective Equipment	N/A

Section IX - Special Precautions

No special precautions necessary

Disclaimer
